LONDON'S NEWEST NEIGHBOURHOOD

THIS IS A PLACE TO FUEL THE IMAGINATION

Awe-inspiring design from two of the world's most renowned architectural practices, Foster + Partners and Gehry Partners, make Battersea Power Station a truly unique place to live.

This is London's most vibrant place to be, where history and high-tech meet on the banks of the River Thames. As well as being one of London's most desirable addresses, this new riverside neighbourhood will be one of the most exciting retail, leisure, culture and office quarters in London.

LONDON'S NEWEST NEIGHBOURHOOD

At the centre of this impressive 42-acre estate sits the iconic Grade II* listed Battersea Power Station, which many people are now calling home. For this next chapter, the only way to complement this famous landmark was to commission not one but two of the world's most innovative and acclaimed 'starchitects'. Gehry Partners and Foster + Partners have come together for the first time to create Electric Boulevard, a new high street for London, which will offer a mix of new homes, bars and restaurants, office space, shops, a park and an exciting new 164 room hotel.

ARCHITECTURE

Foster + Partners' beautifully designed Battersea Roof Gardens and Gehry Partners' stunning Prospect Place sit perfectly alongside Sir Giles Gilbert Scott's iconic Power Station on the banks of the River Thames.

The striking range of architectural styles gives each building its own identity, where old and new stand side by side in harmony. Both Gehry Partners and Foster + Partners have successfully captured the essence of what makes London such a diverse and interesting city.

The undulating facades of Prospect Place, inspired by the billowing sails of ships, make an impressive statement and together with the elegant, sweeping lines of Battersea Roof Gardens, they perfectly frame the pedestrianised boulevard below.

A short walk along the banks of the River Thames is one of London's largest and most popular green spaces, the magnificent 200-acre Battersea Park with its gentle tree-lined walkways, open grasslands, bandstands, lakes and all-weather outdoor sporting facilities.

With 19 acres of open and green space, including Prospect Park and the six-acre riverside Power Station Park, residents will never need to go far to enjoy the great outdoors.

LONDON'S NEWEST NEIGHBOURHOOD

THE RESIDENCES

These architectural masterpieces offer a choice of different styles of living. For those who enjoy a quintessentially modern lifestyle, typical of Foster + Partners' designs, there is Battersea Roof Gardens. Those who favour a more individual, playful style might prefer the unique design of Gehry Partners' Prospect Place where no two homes are identical.

BATTERSEA ROOF GARDENS

Designed by Foster + Partners, these cool contemporary homes with floor to ceiling glass windows are awash with light. Almost every apartment has its own winter garden with many enjoying balconies and spectacular views of the Grade II* listed Power Station.

Two carefully designed interior palettes with tones based on the Power Station's Turbine Hall A and Control Room, bring distinctly different qualities; one light and airy and the other slightly warmer and more richly coloured.

LONDON'S NEWEST NEIGHBOURHOOD

Residents can enjoy access to a unique green space in the sky which provides an abundance of peace and tranquillity. The expansive Roof Gardens will offer 360-degree views across the London skyline.

PROSPECT PLACE

Prospect Place has the distinction of being the very first residences that acclaimed architects, Gehry Partners, have designed in the UK.

The eye-catching exteriors are created by the unique winter garden pods that appear to cascade down the sides of these magnificent buildings. Some apartments also have expansive private terraces and all have access to the podium level residents' garden.

Gehry Partners have designed two bespoke palettes for the interiors; one with tones inspired by the Californian sunshine and the other with a calmer, more contemporary feel.

CONCIERGE

Experienced concierge teams are on hand to provide best-in-class customer service and assistance in both Battersea Roof Gardens and Prospect Place.

As well as being a friendly, welcoming face to come home to, the team can help make life easier by arranging restaurant reservations, booking theatre tickets, organising dry cleaning, signing for packages, and much more.

CGI OF RESIDENTS' GYM

AMENITIES

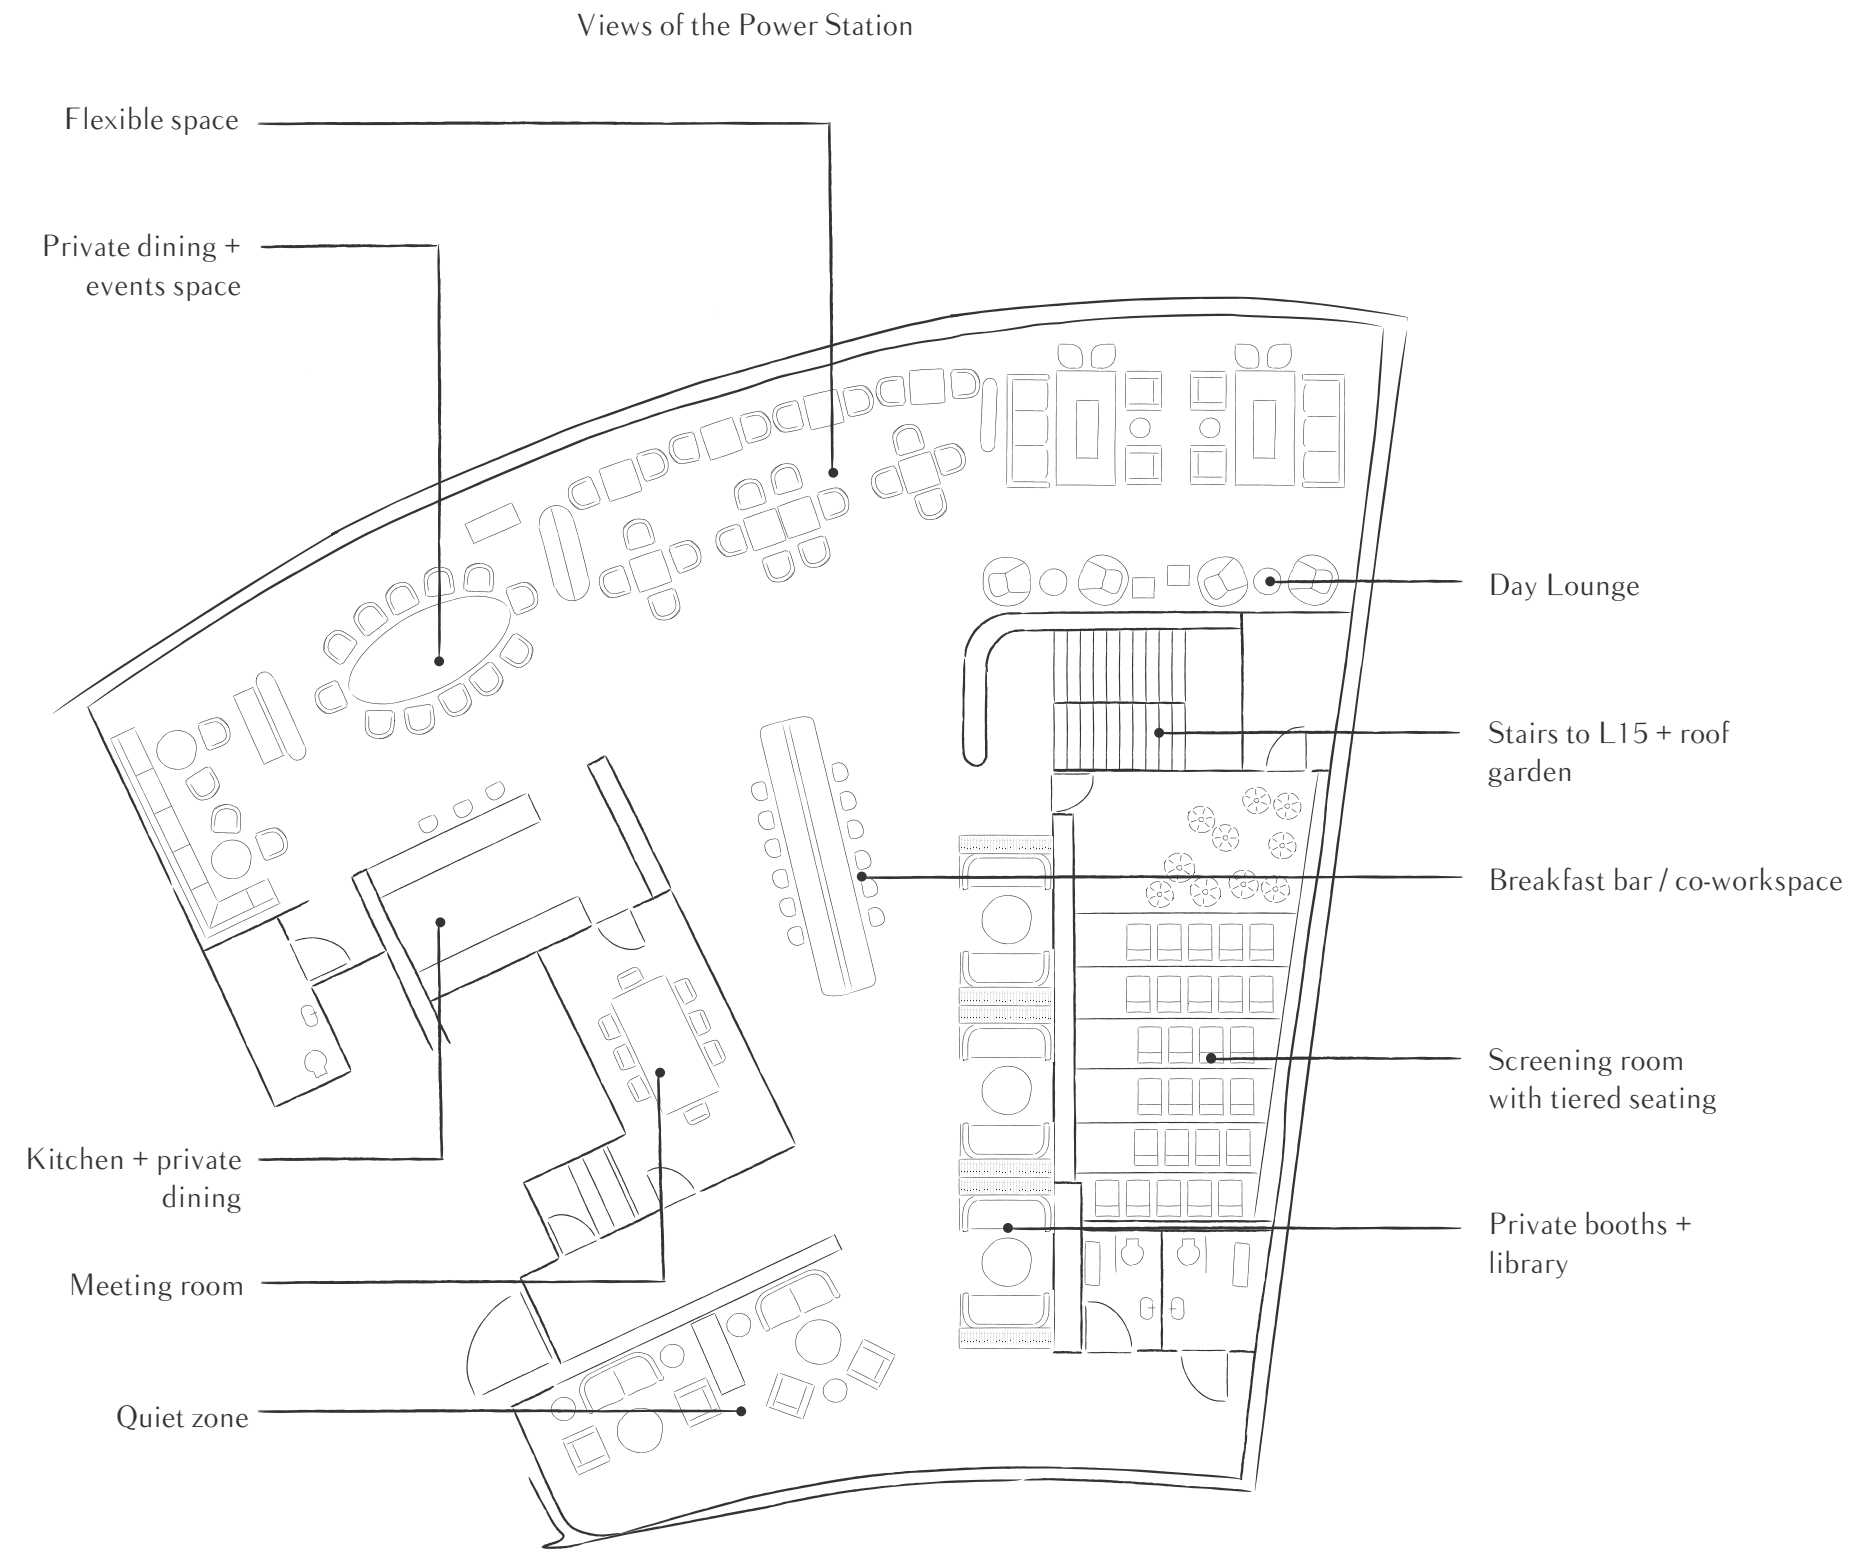

Residents can enjoy the 8,350 sq ft private Sky Lounge, on the 14th and 15th floors of Battersea Roof Gardens, with dramatic views of London's skyline to both the east and west.

The sunset bar, elegant workspaces, luxurious cinema room and cosy lounge areas, provide an abundance of places in which to entertain, work or relax.

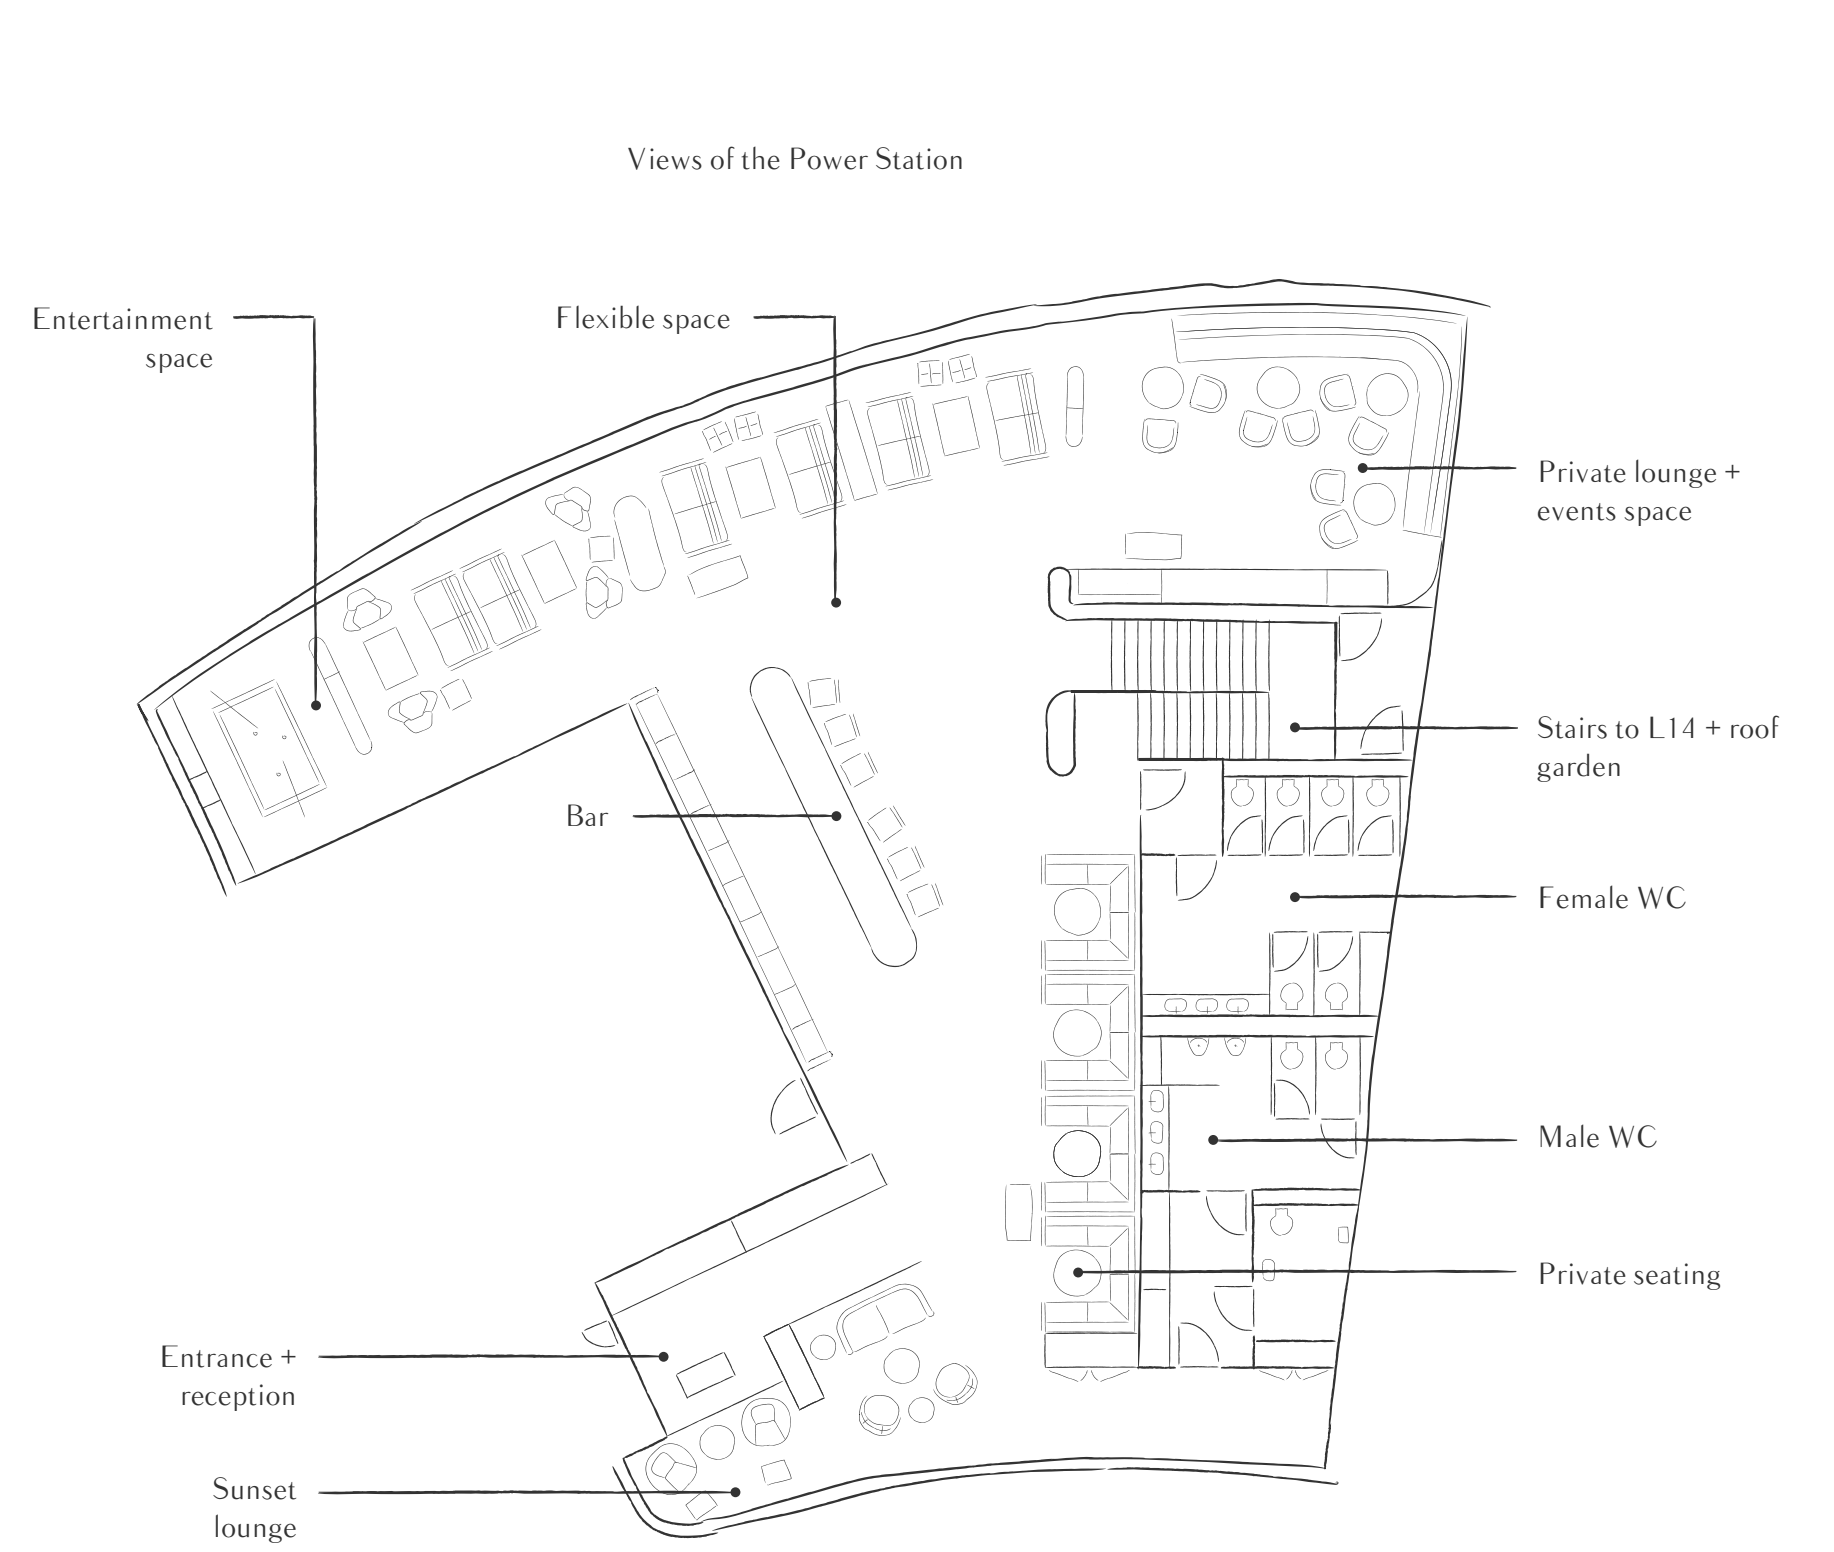

There is also a fully equipped, state-of-the-art gym and the flora and fauna of the Roof Gardens for a relaxing stroll or to sit and enjoy the impressive views.

The Roof Gardens, designed by LDA Design and James Corner of Field Operations, (the visionary landscape designers behind New York City's High Line), also include sun lawns, BBQs and picnic areas, perfect for entertaining family and friends.

SHOPPING

The grand pedestrian high street, Electric Boulevard, sweeps up from the new Battersea Power Station Underground station to the foot of the iconic Power Station. The dramatically designed double height flagship stores of Gehry's Prospect Place provide numerous opportunities to purchase everything from stylish wardrobe must-haves and fashionable homewares, to fresh groceries and much, much more.

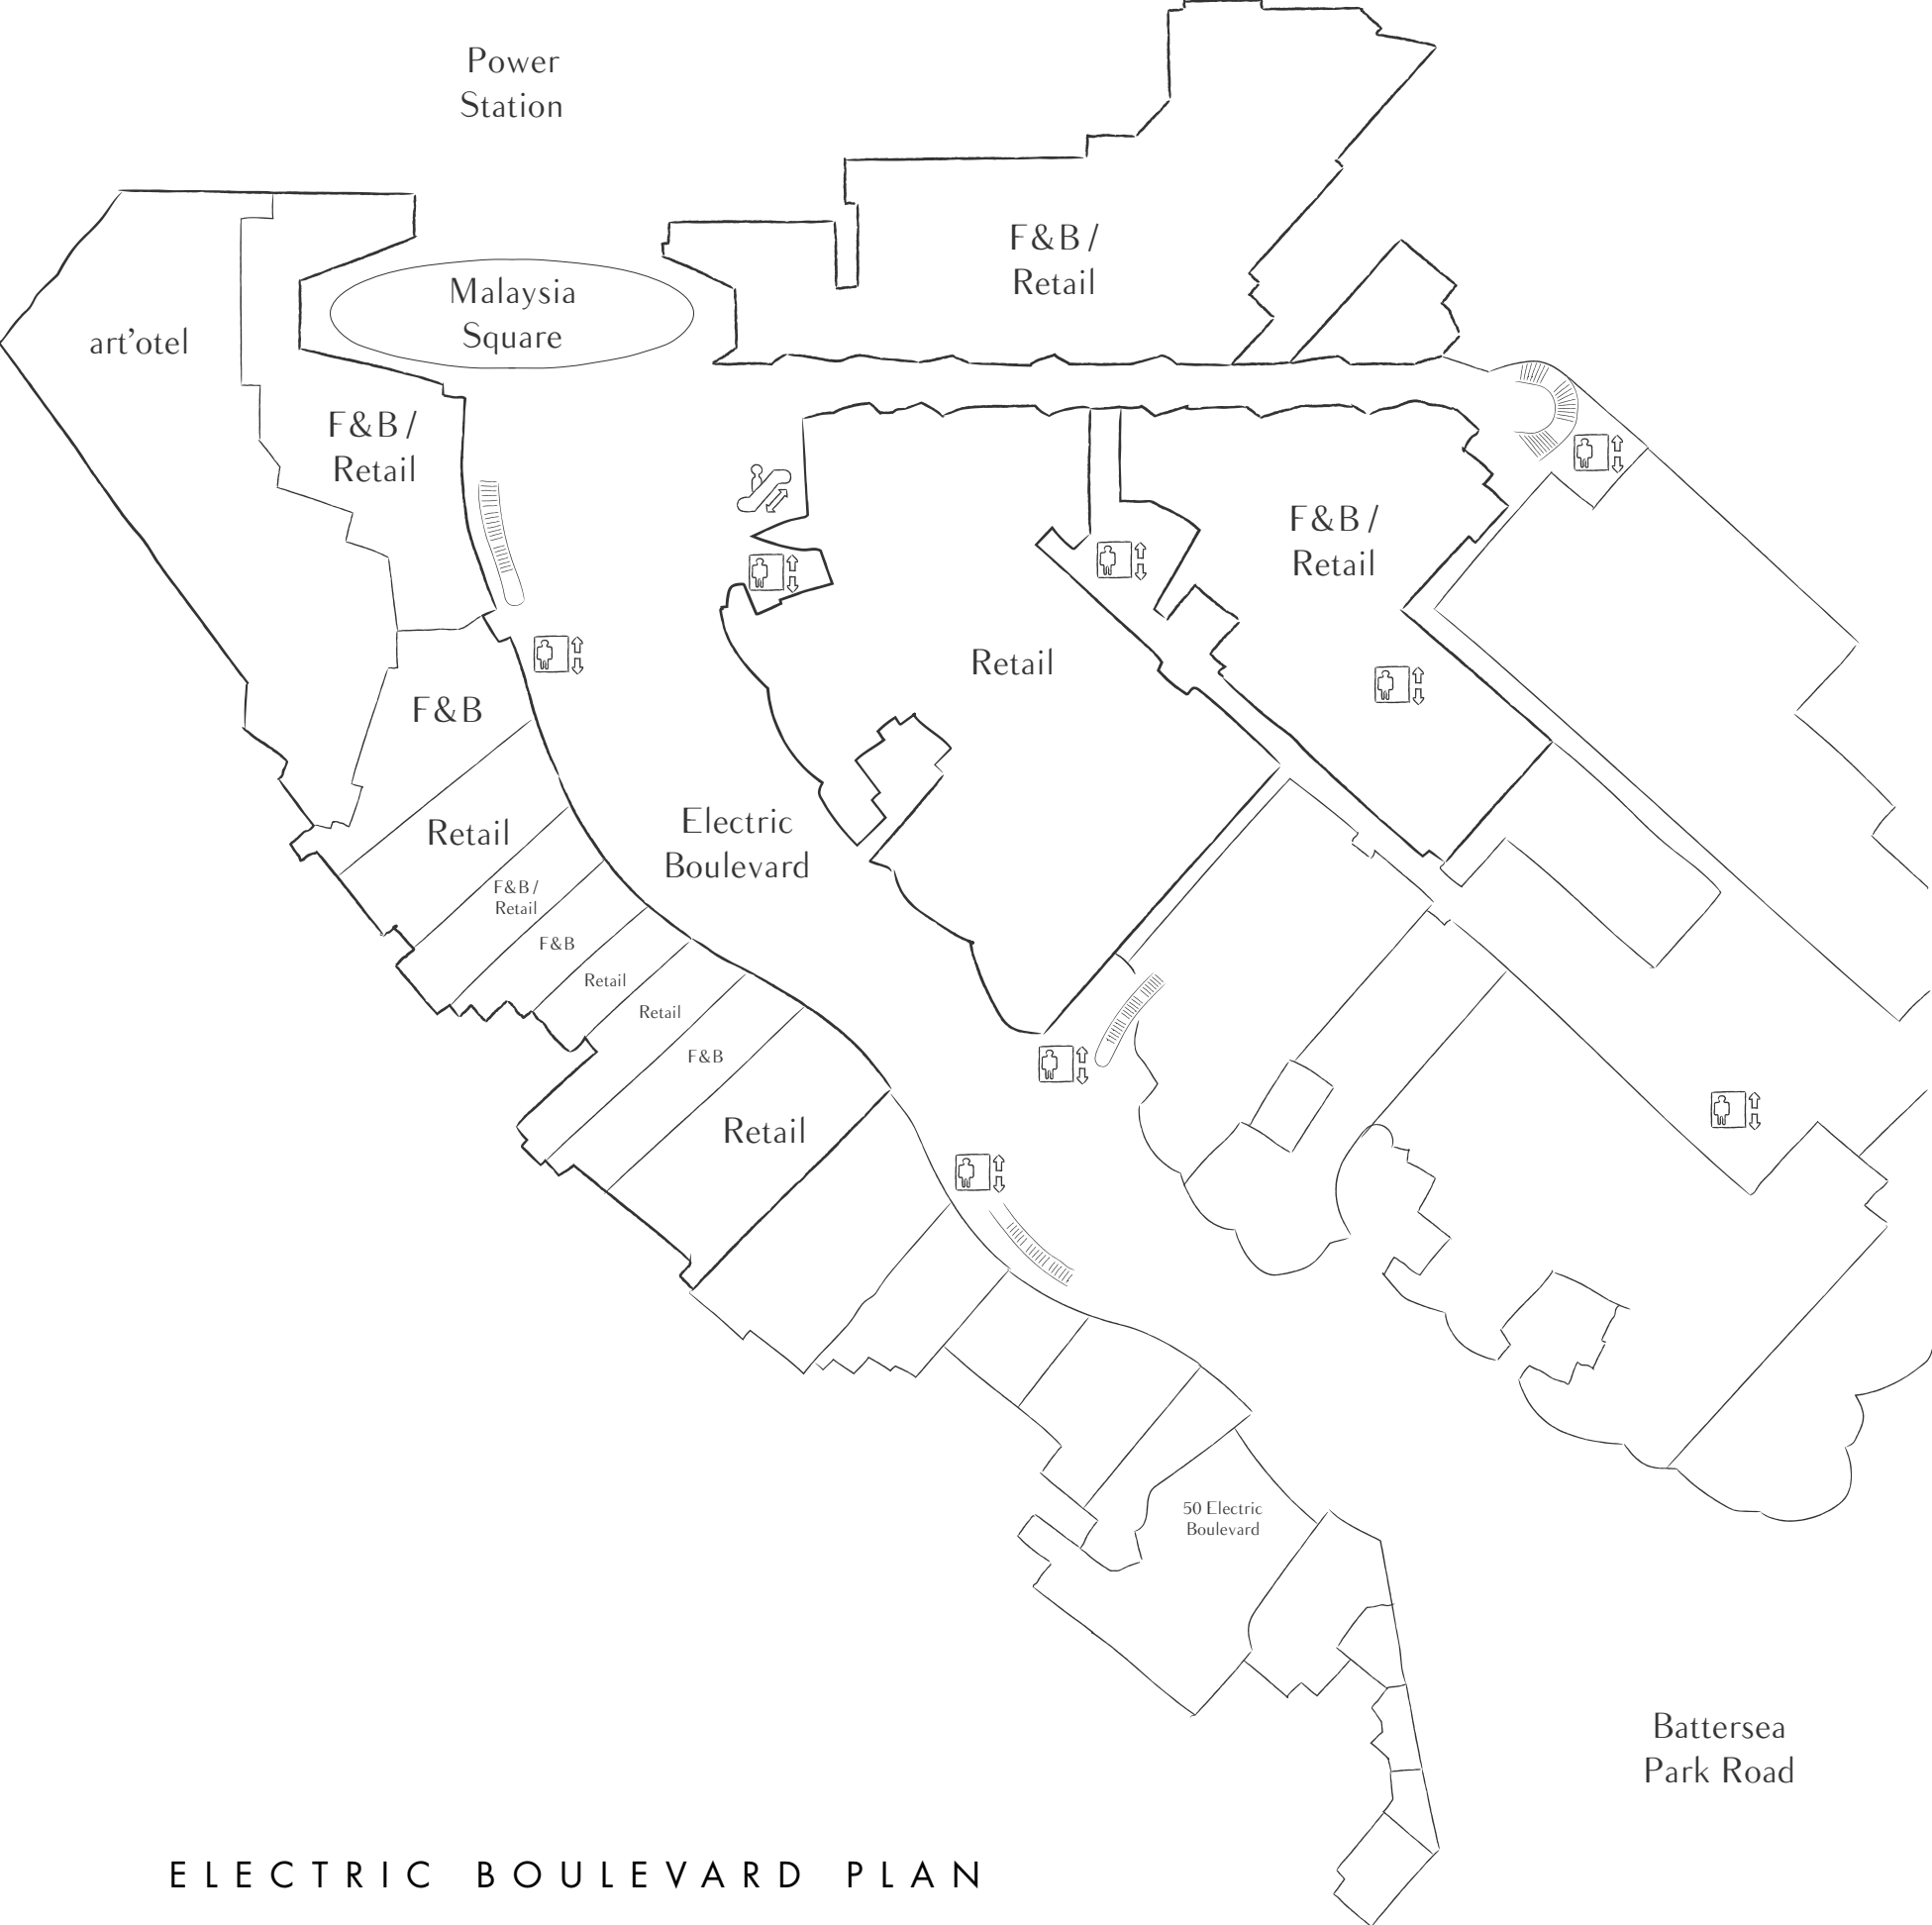

On the opposite side of the Boulevard, a variety of cafes, bars and signature restaurants with alfresco dining sit on a mezzanine level within Foster + Partners' Battersea Roof Gardens above another exciting mix of shops.

CGIS OF THE EXCITING MIX OF SHOPS ON ELECTRIC BOULEVARD

ELECTRIC BOULEVARD PLAN

LONDON'S NEWEST NEIGHBOURHOOD

All this in addition to the extraordinary new shopping destination inside the Power Station itself, which brings together an eclectic mix of high-end fashion brands, bars, restaurants, leisure and entertainment venues, including the chimney lift experience, offering 360 degree views of the London skyline from the top of the Power Station's north west chimney.

This is a place with scale, drama and an inspirational regeneration story at its core, creating the ultimate shopping experience in central London.

NEIGHBOURHOOD

Battersea Roof Gardens and Prospect Place bring a new dynamic to the already thriving neighbourhood at Battersea Power Station.

Shops, dining spots, entertainment and wellness centres, one of London's luxury health clubs and the stunning new art'otel, all bring this cosmopolitan quarter to life.

Sit and relax on the steps of the amphitheatre-like Malaysia Square and take in the Power Station's iconic chimneys or wander through the public Prospect Park with its creatively designed children's playground.

GETTING AROUND

Just a few minutes' walk away is Battersea Power Station's very own Zone 1 underground station providing high speed connections to the rest of London, with the City and the West End accessible in under 15 minutes.

Sloane Square and Chelsea are a short stroll across Chelsea Bridge, and the Uber Boat by Thames Clippers from Battersea Power Station Pier offers a new way of exploring the capital from the river, or a more leisurely commute to work.

Battersea Park and Queenstown Road stations are also close by, providing rail links into Victoria and Waterloo within five minutes, and once complete, Crossrail will be accessible within 15 minutes.

When it comes to exploring the globe, Heathrow and Gatwick airports are both within easy reach by road and rail.

THE POWER STATION AT ITS PEAK

HERITAGE

From the late 1930s, Battersea Power Station produced up to a fifth of London's power, supplying electricity to some of London's most recognisable landmarks, such as the Houses of Parliament and Buckingham Palace.

Following its closure in 1983, it became a cultural landmark, a much-loved backdrop to many films, a venue for spectacular shows, fashion shoots and events, as well as a source of inspiration for artists and musicians.

Today, the once vast derelict wasteland on which it sat, has been transformed and reimagined into a flourishing new environment for residents, Londoners and visitors to enjoy, marrying what it once was with what it can now be.

STUDIO OF INNOVATION FOSTER + PARTNERS

Founded by Norman Foster in 1967, Foster + Partners is a global studio for architecture, urbanism and design rooted in sustainability. Since launching over 50 years ago, this award-winning international architectural design and engineering firm has earned a worldwide reputation for excellence.

Projects like the Reading Room at the British Museum, The Gherkin and Beijing Airport Terminal 3, showcase the studio's creativity and ambition.

GEHRY PARTNERS PRACTICE OF CREATIVITY

Frank Gehry established his practice in 1962 and it has garnered respect and recognition for his extraordinary and eye-catching designs across the globe.

Every project undertaken by Gehry Partners is overseen by Frank Gehry himself, ensuring his ethos to create unforgettable designs with a lasting impact is realised in every building. The Guggenheim Museum in Bilbao, Foundation Louis Vuitton in Paris and the Dancing House in Prague to name but a few, are a testament to this.

KITCHEN

The kitchens are bespoke elements within the apartments, custom designed with a range of layouts to suit each apartment. They are the focus of each home, defining the open-plan living spaces

KITCHEN

The rough sawn oak fronts of the cabinets in the LA palette kitchen are an expression of the rough wood framing of the houses in Los Angeles. This rough, casual feeling is a signature of Frank Gehry's early work. Many of the early projects left wood framing exposed as a part of the interior design. The kitchen islands, in selected apartments, are inspired by the trestle leg table concept of the studio work tables of the Gehry studio. Our work tables are where we experiment and create new ideas. We would like to create a similar quality in the design of the island kitchen.

Metal finishes in the kitchen create a streamlined industrial feel. London is the city where high-tech architecture, brutalist rough concrete architecture and old masonry buildings all come together to create a fantastic collage with rich textures. The future and the past exist side by side. The beautiful quality of the metal finish picks up surrounding colours and light. Lower cabinets reflect the colour of the floor, and the upper cabinet reflects the colour of the ceiling.

INTERNAL ACCESS, WALLS, DOORS, FLOORS & FITTINGS

The chevron floorings of the London palette gives a sense of the heritage of London. In order to differentiate from 'herringbone' patterns used in Phase 1 and Phase 2, we use a 'basket weave' pattern that relates to Frank Gehry's bent wood furniture. The warm and rich brown wood floor was inspired by the wood floor of the Control Rooms of the Power Station.

PLACEMAKERS

Battersea Power Station is being redeveloped by an international consortium with a proven track record. The project is driven by backing from Malaysia's most well respected and successful property development and investment businesses, S P Setia Berhad, Sime Darby Property, The Employees Provident Fund and Permodalan Nasional Berhad.

DEVELOPMENT MANAGER

The development is being managed by UK-based Battersea Power Station Development Company (BPSDC). The team of leading professionals at BPSDC bring a huge amount of knowledge to the scheme, together with experience of delivering largescale developments both in London and around the world.

The creation of a multi-functional, mixed-use place that will become an exemplar project in London is the key objective. This unique UK/Malaysian partnership brings with it the financial strength, expertise and commitment necessary to deliver what is one of London's most important and iconic development projects that will set new standards for development in the capital.

SP SETIA BERHAD

Since its incorporation in 1974, S P Setia has been a household name in the property development industry. The Group is recognised as one of Malaysia's leading listed real estate players, with a portfolio that encompasses townships, ecosanctuaries, luxury enclaves, high-rise residences, and commercial and retail developments.

S P Setia is the only Malaysian developer to have received 11 FIABCI World Gold Prix d'Excellence Awards by the International Real Estate

Federation (FIABCI) and 11 FIABCI Malaysia Property Awards.

In 2018, S P Setia was ranked No.1 in The Edge Malaysia Top Property Developers Awards for a record-breaking 11th time – the only developer to have achieved this feat since the inception of the awards.

The Group is well established in the three key economic centres of Malaysia – namely Klang Valley, Johor Bahru and Penang – and also has a project in Sabah. Its international reach now includes six countries: Vietnam, Australia, Singapore, China, the United Kingdom and Japan.

PERMODALAN NASIONAL BERHAD

Permodalan Nasional Berhad (PNB) was established on 17 March 1978 as one of the instruments of the New Economic Policy (NEP) to re-engineer the economic imbalance in Malaysia and enhance Bumiputera economic participation via equity investments.

Through its various unit trust funds, PNB has enabled the sharing of corporate wealth with all Malaysians by delivering consistent, competitive returns over the years to its unit holders. Over the past four decades, PNB has grown to become one of Malaysia's largest fund management companies.

It has an investment portfolio that covers strategic investments in leading

Malaysian corporates, global equity, private investments and real estate, including majority stakes in leading Malaysian developers S P Setia Berhad and Sime Darby Property Berhad, which jointly own 80% equity in the wider Battersea Power Station development.

THE EMPLOYEES PROVIDENT FUND

The Employees Provident Fund (EPF) is Malaysia's premier retirement savings fund, created to help its members achieve adequate savings for a comfortable retirement.

This is in line with EPF's vision to help members achieve a better future and its mission to safeguard members' savings and deliver excellent services. The fund has evolved significantly from transaction-centric to a professional fund management organisation with a strong focus on retirement security.

The EPF is guided by a robust and professional governance framework when making investment decisions. It continues to play a catalytic role in the nation's economic growth and seeks to cultivate a savings and investment culture among its members to improve the country's financial literacy level.

SIME DARBY PROPERTY

Sime Darby Property is Malaysia's largest property developer in terms of land bank, with 20,374 acres of remaining developable land. On the

back of a successful 46-year track record of developing sustainable communities, Sime Darby Property has to date built 23 active developments, with a global reach that encompasses assets and operations across the Asia Pacific region and the United Kingdom.

Sime Darby Property is a multiple award-winning property group with numerous local and international accolades. It is the first Malaysian property developer to be awarded the International FIABCI Prix d'Excellence Awards twice – for its Subang Jaya and UEP Subang Jaya townships.

The company bagged its ninth consecutive Gold at the Putra Brand Awards 2018 and its sixth consecutive Top 10 Developers Awards at the BCI Asia 2015. Sime Darby Property has also been recognised as among the top developers in Malaysia in the annual The Edge Top Property Developers Awards, a recognition that the company has consistently received since 2009.
